

*This is my vote for the House of Representatives and this is what I honestly think about the people that I voted for. I will email this to my party's candidate and blind copy to family and friends.*

*Why? Because voting for the other side should not be the only way to sanction my representatives when they misrepresent. I do not agree with everything that my side of politics says and does. I often see merit on the other side. I resent that my vote is taken for granted.*

*Somebody should build an app that invites each of us to take responsibility for our side of politics.*
