

This is my vote for the House of Representatives and this is what I honestly think about the politicians and the party that I voted for. I will email this to my party's candidate and separately to family and friends. Because voting for the other side should not be the only way to sanction my side of politics. I resent that my party takes my support for granted. I often see merit on the other side.

Somebody should build an app that makes this easy, inviting us to engage with politics and to check misbehaviour and cowardice on our side of politics. Till then, this photo is a homemade form of party membership that, for the next three years, I can attach to an email when I need to have my say.
